

Rural Voices

A
book
review!

Place-conscious education and the teaching of writing

Edited by Robert E. Brooke Comic by Hannah Miranda

PLACE-BASED LEARNING!

Yeah!

Let's all work together to give our students the place-based knowledge they need!

What was this town like when you grew up here in the 60s?

INTERVIEWS WITH COMMUNITY MEMBERS

CAREER EDUCATION

I want to be a doctor when I grow up and open up a practice right here in town!

I can't believe that this beautiful clocktower is right here in my community!

TRIPS TO HISTORIC SITES AND NATURAL AREAS

WOW!

Wow, when I write about these topics, I feel connected to both my writing and the community!

This worked so well! I'm going to share this with other rural teachers!

Even though we can't solve all of the issues that rural schools face, place-based learning has created a stronger community, which means we can effectively address problems together!

RURAL VOICES

PLACE-CONSCIOUS EDUCATION

AND

THE TEACHING OF WRITING

By copying the teachers, students, and community members who were in Rural Voices, we can make positive changes to education in rural communities! We are all in this together!
